

# Giraffe Concept Study

Tierwelt Herberstein Zoo, Germany

**Animal Area:** 7800 m<sup>2</sup>  
**Animal:** Giraffe  
**Budget:**  
**Time frame:** 2014

Visitors viewing Giraffe

## Concept Study

In collaboration with local professionals and the Tierwelt Herberstein Zoo, we studied three options for locating the giraffe exhibit, including a sizable barn. Each option explored what kind of relationship the exhibit and the barn would have with the rest of the zoo and how the giraffes could best use the space.

Option 1 - The placement of the Giraffe Barn provides picturesque view of the giraffe from key

Option 2 - The Giraffe Barn is a portal to the Zoo locations

Option 3 - The Giraffe Barn connects to the zebra exhibit, creating an opportunity for a transfer
